# PILLAR- 5

## PRELIMS TEST SERIES

### ▶ Solving tests beyond the capacity

- Of Course, you should solve as many tests as possible, but this doesn't mean solving 150 tests without analyzing the previous ones.
- Ideally, you should solve a minimum of 30-35 tests. Only after you have analysed them, should you move on to the next tests.

### ▶ Not Solving Quality Tests

- Solving average or poor quality tests can only give you temporary satisfaction, and not results. Unfortunately, most test series today in market aren't well aligned with the changing needs and the demand of UPSC
- At SOMP, our aim is very simple – to give absolute quality and relevance in all the tests.

### ▶ Not analysing the tests, and harping on scores rather than the learnings.

- In Simple words – it's a sin to not do that.

### ▶ Having an impractical schedule of solving tests, and procrastination.

- The Schedule of our test series is designed as per the practical considerations and to deal with procrastination, we will be conducting tests live on Zoom Session.

And Sir my feedback 🙏 on outcome based mentorship program

14:07

Firstly, thank you so much for this initiative sir.. joined it with the intention to gauge myself from where i stand with other aspirants in this preparation as i was preparing on my own at home also i was slightly loosing confidence from mid March....But never expected that these sessions will be so much productive...never completed polity(majority of it)so quickly in my entire preparation with so much clarity...Thanks to you. Got to know the value of time specially when you gave around 10 to 15 minutes to revise the things 😊 and asking questions making those sessions more productive and active.

One suggestion: For Ancient and Modern india it would be useful if co-aspirants spend extra 10min to discuss things which they collected from various sources and feel important for the exam...In this way it will save our time to make value addition separately

First of all thanks for the timing of the session sir. Maybe in my whole preparati journey I've never woken up this early and revised any subject 🤩. It was a difficult task for me but I was able to move out of my comfort zone and study.

The session was helpful for me because it made me revise particular chapters in time bound manner. Otherwise I would ha taken little more longer to cover them.

Also the important points you emphasised will surely get more clearer in my memory. And the possibility of getting confused in exam as well in similar concepts you highlighted will help more.

Overall I found it helpful.

One suggestion,if possible, that can you add pyq of 2-3yrs to make us analyse the importance of topic as well as how to attempt that particular question.

Thanks a lot sir. 🙏
