## Some Feedbacks of Last years' Outcome Revision Program

First of all thanks for the timing of the session sir. Maybe in my whole preparation journey I've never woken up this early and revised any subject 😊. It was a difficult task for me but I was able to move out of my comfort zone and study. The session was helpful for me because it made me revise particular chapters in time bound manner. Otherwise I would have taken little more longer to cover them. Also the important points you emphasised will surely get more clearer in my memory. And the possibility of getting confused in exam as well in similar concepts you highlighted will help more. Overall I found it helpful. One suggestion, if possible, that can you add pyq of 2-3yrs to make us analyse the importance of topic as well as how to attempt that particular question.

Thanks a lot sir. 🙏

And Sir my feedback 🙏 on outcome based mentorship program 14:07

Firstly, thank you so much for this initiative sir.. joined it with the intention to gauge myself from where i stand with other aspirants in this preparation as i was preparing on my own at home also i was slightly loosing confidence from mid March....But never expected that these sessions will be so much productive..never completed polity(majority of it)so quickly in my entire preparation with so much clarity...Thanks to you. Got to know the value of time specially when you gave around 10 to 15 minutes to revise the things 😊 and asking questions making those sessions more productive and active.

One suggestion: For Ancient and Modern india it would be useful if co-aspirants spend extra 10min to discuss things which they collected from various sources and feel important for the exam...In this way it will save our time to make value addition separately.. 14:08

April 10

Hello sir, Good evening  
I am Nidhi from phoenix batch 1.  
Thank you for extending the outcome based initiative to us..  
I joined today's class and it was really effective in revising things in very less time.. I would've have studied by my own i would have taken atleast 2 days to revise those things which I revised in just three hours and also in very effective way..  
Thank you sir.. 15:42

#outcome program

The 3 hr session is worth more than 6 hours anyday. I can revise so many things that too twice in much less time.

Sessions were good sir. The best part was that I got to know about the linkages between different timelines. Got some new insights. And it is good for filling the gaps and making it easier for revision. Looking forward to continue with the sessions.

Review of Outcome Revision Program :

1. Faster revision . The topics which we take whole day without exactly knowing what facts to focus and what not to (in revision cycles), these sessions help, as we revise in given time along with sir's class .
2. I am attending these sessions after completing PYQ sessions. I see sir is incorporating most of the keywords (or topics) which were asked in PYQ's. So , the newer areas are getting covered. Hence , giving a satisfaction of decent coverage of topics.
3. The short notes with topics sorted according to number of revisions needed is helping me in further revision.

Thank you Sahil sir and SOMP team.
